

ADEOTI OLUWASEYI OLAJUWON

Senior Full-Stack Engineer

Lagos, Nigeria | +234 916 663 586 | oluwaseyiadeoti825@gmail.com | seyi-adeoti.netlify.app | github.com/seyi-adeoti

PROFESSIONAL SUMMARY

Full-stack engineer with 6+ years building enterprise fintech and logistics platforms. Specializes in React.js, TypeScript, and Next.js on the frontend, with hands-on backend and systems experience in Spring Boot, Java, and Kafka-based microservices. Currently leading frontend engineering for CBN-regulated banking products at Sterling Bank, including a core banking migration. Experienced coordinating delivery across backend, DevOps, and QA teams. Open to senior and lead roles, including relocation and visa sponsorship.

CORE TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), Angular, HTML5/CSS3, SASS/SCSS, Tailwind CSS, Styled Components

Backend & Systems: Node.js, Spring Boot (Java 17), REST APIs, Apache Kafka, WebSockets, Microservices, System Design, Distributed Systems

State Management: Redux Toolkit, Zustand, MobX, TanStack Query, Context API

Databases: PostgreSQL, MySQL, MongoDB, Redis, SQL

Testing: Jest, React Testing Library, Cypress, Playwright, TDD

DevOps & Cloud: Docker, Kubernetes, AWS (EKS, EC2, RDS), Azure, GitHub Actions, Jenkins, CI/CD Pipelines

Security & Compliance: OWASP Top 10, JWT, OAuth2, XSS/CSRF Protection, KYC/AML, CBN Compliance

Practices: Agile/Scrum, Technical Leadership, Mentorship, Design Systems, WCAG 2.1 AA

PROFESSIONAL EXPERIENCE

Senior Frontend Engineer — Sterling Bank Plc / Altbank

Jul 2023 – Present

Lagos, Nigeria

- Architected and own the frontend of enterprise banking products serving 100,000+ users, built with React.js, TypeScript, and Next.js.
- Contribute to a core banking migration to Altbank, coordinating frontend integration, regression testing, and data validation across systems.
- Built the branch account opening channel and card portal (tracking, card operations, insurance integration), adopted across all Sterling branches.
- Delivered a loan application workflow with intake, inputter handoff, and multi-level approval, integrated with backend services.
- Reduced transaction page load times through code splitting, lazy loading, and bundle optimization.
- Implemented security standards including JWT, OAuth2, and XSS/CSRF protection across financial data surfaces, aligned with OWASP guidance.
- Maintain high automated test coverage using Jest and React Testing Library, integrated into CI pipelines.
- Mentor mid-level developers on React best practices, code review standards, and financial application security.
- Act as the primary liaison between frontend and DevOps/QA/backend teams, defining API contracts and release readiness.

Stack: React.js, Next.js, TypeScript, Zustand, Tailwind CSS, Docker

Engineering Team Lead — Tripvalue

Dec 2021 – Dec 2022

Lagos, Nigeria

- Led a cross-functional team of 6 engineers building a full-stack logistics management platform covering real-time tracking, inventory, and route optimization.
- Defined technical architecture, service boundaries, and delivery roadmap; ran sprint planning, architecture reviews, and retrospectives with direct stakeholder reporting.
- Built a real-time fleet tracking dashboard using React, WebSockets, and microservices, reducing route resolution latency by 40% at peak load.
- Designed and shipped RESTful APIs serving 50,000+ daily requests.
- Established coding standards, PR review culture, and agile rituals that improved team delivery velocity.

- Deployed containerized services with Docker, orchestrated with Kubernetes for zero-downtime production rollouts.

Stack: React.js, TypeScript, MongoDB, Redis, Docker, WebSockets

Frontend Developer (Part-Time) — Aglow Digitalis

Oct 2021 – Dec 2022

Lagos, Nigeria

- Improved website performance through React optimization, modern build tooling, and asset delivery improvements, alongside a full-time engineering role.
- Built responsive interfaces across devices, contributing to improved UX and conversion.
- Implemented A/B testing infrastructure enabling data-driven decisions across marketing and product teams.

Stack: React.js, TypeScript, Webpack, Sass

Frontend Developer — Aid Me

Feb 2020 – Nov 2021

Lagos, Nigeria

- Built and maintained a reusable component library with Storybook documentation, cutting development time across 4+ product teams.
- Implemented frontend architecture for complex multi-module applications, handling concurrent user state with Redux and Context API.
- Integrated 15+ third-party APIs including payment processors, analytics platforms, and notification services, with error handling and retry logic.
- Improved WCAG 2.1 AA accessibility scores across products, reducing audit risk and broadening user reach.
- Improved rendering performance through virtual DOM optimization and memoization strategies.

Stack: React.js, Redux, TypeScript, REST APIs, Jest, Storybook, HTML5/CSS3

Frontend Engineer (Contract) — Remote client — Budapest, Hungary

Jan 2020 – Apr 2020

Remote

- Built a fast-launch order-to-rider matching application for a logistics startup, including driver verification and document submission workflows.
- Delivered a real-time order-matching flow with responsive design for field operations, integrated with backend APIs for document and address verification.

Stack: React.js, TypeScript, Real-time APIs, Responsive Design

NOTABLE PROJECTS

CBN-Compliant Wallet System — Personal / Open Source

- Production-grade wallet with KYC Tier 1/2/3 enforcement, AML flagging, a double-entry GL ledger, and idempotent transfer endpoints.
- Kafka-backed async transaction processing with a full audit trail on every action.

Stack: Java 17, Spring Boot, PostgreSQL, Redis, Apache Kafka, Docker

Lecture — Tech Learning Marketplace — lekture-fe.vercel.app

- Student-to-teacher matchmaking platform with onboarding, course discovery, teacher assignment, and real-time communication — deployed and live.

Stack: React.js, Next.js, TypeScript, Real-time API, Responsive Design

EDUCATION & CERTIFICATIONS

B.Sc. Public Administration — National Open University of Nigeria

AWS Certified Developer – Associate

React Advanced Patterns Certification

Advanced Web Development Certification

AVAILABILITY

Open to senior and lead engineering roles — onsite (Lagos), remote, hybrid, or full relocation with visa sponsorship.
